DEFINING SPACES

FOR THE FUTURE
OFFICE ENVIRONMENT

THE NEW OFFICE

Waiting for life to return to pre-pandemic normal? Normal is a long way off, and as your employees return to work you may be looking for solutions to protect your customers and staff.

Working from home is not for everyone or every organization. That is why many organizations and companies are looking to rebuild and redefine their space.

As we watch the reversal of open-office trends play out, you may be looking for furniture solutions that will allow co-workers to socialize while maintaining suitable separations to help curb the spread of germs and viruses. This could mean the introduction of various types of barriers between desks and spaces that still promote thought, inspiration and collaboration between co-workers.

Egan Visual offers innovative office solutions that can help separate employees in a collaborative and innovative workspace. From Mobiles to Table Screens, Egan offers everything you need to optimize workflow, even as you divide and define your space to protect your people against COVID 19.

INSTANT SHIP

Need products, fast, to rebuild your office space, so your employees can get back to work safely? Egan offers a 15-day TableScreen Instant Ship program. Helping you implement safe workplace solutions quickly and confidently.

Egan also offers standard EVS and glass boards to ship in 2 business days through our Instant Ship program. In quantities of up to six, order Aluminum Frame Markerboard, Dimension Stele, and GlassWrite MAG for a quick turnaround.

You ask, we deliver..

TABLESCREENS

Redefine professional environments and customize space with Egan TableScreens.

With a commitment to quality, craftsmanship, and innovation, Egan offers a range of standard and custom table dividers that create functional space division without compromising design or collaboration.

Egan TableScreens come in a variety of frame designs, infill options, and mounting configurations. Our screens are available in an array of standard and custom heights, lengths, and colors. Thus, you can create a beautiful and appealing space where collaboration and innovation take precedence, and at the same time protect your people from the Covid-19 virus.

GLASS TABLESCREENS

Our Glass TableScreens feature low-iron tempered safety glass for high optical clarity of surface and edges. All Glass products feature a pristine surface and are guaranteed-to-clean. Also, our glass infills are specified in a variety of heights and widths. As a result, you can customize your glass TableScreen using EganINK for bespoke graphics, branding, organizational charts, imagery, and more.

GlassWrite TableScreen: Frameless glass infills in clear or frosted glass and polished edges give GlassWrite TableScreens a modern look.

GlassWrite Boxcore TableScreen: A clean, dry-erase glass framed with clear anodized aluminum (1 1/8" frame). Available in white and other beautiful colors from Egan Infinite Palette.

GlassWrite Lumens TableScreen: Base lit with high efficiency LED lighting for a stunning optical effect. Lighting gives the TableScreen a subtle outline of low-intensity light to separate each work surface.

MOBILE

Looking for a temporary solution to break up space? Egan free-standing Mobiles can be easily rolled between tight spaces to create separation and barriers between desks. Egan offers a wide range of standard and custom mobiles to create functional space division without compromising design or collaboration.

Egan Mobiles have a variety of frame designs and infill options, and they are available in an array of standard and custom heights, lengths, and colors.

LINKING MOBILES

Linking Egan Mobiles is a great way to create temporary walls and desk division to separate employees. Creating a safe environment where employees can collaborate effectively. Our premium quality Dimension and V-Series Mobiles can be used independently or linked together to divide open office space.

STANDING RIGGING

Spark ideas through creative space division using the Egan Standing Rigging. This is a professional-grade, productivity-starting wall canvas designed to bolster employees' thoughts and ideation; while dividing space.

An architectural-grade installation, Standing Rigging is constructed with Egan Boxcore 29 presentation boards mounted to high tension cables.

You can specify Standing Rigging with either EVS, GlassWrite, EcoTack, or tackable fabric infills.

WALL SOLUTIONS

Most painted hallways hold germs on their surfaces, which makes them difficult, if not impossible, to clean. Egan, on the other hand, offers highly cleanable full-wall solutions with GlassWrite or Dimension LINXX. With our easy-to-clean EVS and glass surface, you can ensure fewer germs in your space, even as you create interesting and purposeful wall space.

CLEANING STORY

Egan has highly cleanable and writable surfaces, which are available in EVS and Glass. In your search for new standards of clean, these Egan surfaces can be your first line of defense against the Covid-19 virus. They are simple to sanitize and built to last. Due to the core construction of EVS and Egan glass, our surfaces can be cleaned with harsh chemicals without damaging the product.

Regular cleaning with a CDC recommended cleaner and an EganCloth will remove over 99% of germs. The CDC recommends using 70% isopropyl alcohol for cleaning. For more information on how to clean and disinfect your surfaces, visit the CDC webpage on [“Cleaning and Disinfecting your Facility”](#)

Built to handle the toughest environments:

- Never ghosts
- Removes sharpie
- Professional grade performance

EVS' smooth matte surface is easy on the eyes:

- Reduces glare from ambient light
- Ideal for projection
- 160° viewing angle

EVS offers design choices unlike Porcelain and Glass:

- Wide array of formats and irregular shapes
- Large, seamless expanse up to 400ft
- Lightweight boards

A man with short brown hair, wearing black-rimmed glasses, a dark blue blazer, and a pink and white checkered shirt, is pointing his right hand towards a whiteboard. The whiteboard has some red and black markings on it. The background is a blurred office setting with a brick wall on the right.
